Sista Suz and the Groove Doodz

Technical Requirements

- **General Information**
 - 5 piece (Keyboard, Guitar, Bass, Drums and Vocalist)
 - 4 Vocals
 - 6-piece single bass drum kit.
 - "Sista Suz and the Groove Doodz" has a PA system (Concert level mains for small to mid-sized venues (up to 1,000 people) and computerized Vegas style lighting/effects show.
 - Preferred stage size is 12' x 24', but will accommodate.
 - Prefer covered stage area for outdoor shows.
- **Auditions/Showcase**
 - Backline: If backline is provided, a powered full range monitor for the guitar and bass. We can provide backline if needed.
- **Performance (with Lights and PA supplied by venue)**
 - Backline: If backline is provided, a powered full range monitor for the guitar and bass. We can provide backline if needed.
 - Monitor setup: If wedges are provided, need minimum of 5, with separate mixes. Would prefer to use in-ears 3 ¼" or XLR "main mix" sends and 3 channels of monitor mix sends (typically used for wedges).
- **Performance (with Lights and PA supplied by Sista Suz and the Groove Doodz)**
 - Power requirements
 - 40 Amps at 120 volts minimum.
 - 50 Amps preferred to ensure that all effects can be used.
 - Minimum 2 hour setup time.
